Gentlemen:

I am in the seventh grade at Howard Junior High School, in Wilmette, Illinois. A part of my course of studies, I am studying current events in general and nuclear accidents in particular.

My particular assignment is the Three Mile Island nuclear accident.

I would appreciate any and all information and pictures and diagrams that you feel would be of interest and informative to our class, as to the normal operation of the plant and the current assessment what part of the plant is damaged, as well as what the current opinion is as to the cause of the accident.

Thank you very much in advance for any and all information that you may be able to furnish me concerning my request.

Yours truly,

Bradley Todd Bergman
