Dear Mr. Deyo:

I am writing in response to your letter to the U.S. Nuclear Regulatory Commission requesting information about Three Mile Island. I regret that this answer to your letter has been delayed. The accident and its consequences have created a substantial increase in the agency's workload, which has prevented me from responding to you as promptly as I would have liked to.

Several Nuclear Regulatory Commission reports are currently available that discuss the accident at Three Mile Island. The reports, their availability, and their costs are as follows:

"Population Dose and Health Impact of the Accident at the Three Mile Island Nuclear Station" (NUREG-0558), \$3.50

"TMI-2 Lessons Learned Task Force Status Report and Short-Term Recommendations" (NUREG-0578), \$3.50

"TMI-2 Lessons Learned Task Force - Final Report" (NUREG-0585), \$2.50

"Investigation into the March 28, 1979, Three Mile Island Accident by the Office of Inspection and Enforcement" (NUREG-0600), \$10.00

These reports can be obtained by writing to:

Publication Sales Manager  
Document Management Branch

All subsequent information about Three Mile Island and its availability are listed in "Title List of Publicly Available Documents: Three Mile Island -
