REGULATORY DOCKET FILE COPY

Mr. R. C. Arnold
Senior Vice President
Metropolitan Edison Company
P. O. Box 480
Middletown, Pennsylvania 17057

Dear Mr. Arnold:

Under separate cover I am sending you copies of operator and senior operator examinations and examiner's reports for 52 licensed operators at Three Mile Island as requested in your letter of December 4, 1979. Each individual has authorized release of this information to you. I regret that we were unable to locate the docket for one person, Mr. Brummer, hence, no information regarding his examinations is forwarded. We will send his examinations when his docket has been found.

You will note that in some instances one or both of the written examinations is missing from an individual's package. In other cases, oral examination notes are missing as well. The reason for this is that in order to conserve filing space we only keep the examinations for a limited time, i.e., until the license is renewed or a new, upgraded license issued. Therefore, most of the examinations administered in the pre-1977 time frame had already been purged from the files. We do, however, keep the examination summary sheets which are being forwarded to you.

I hope you find this information useful and responsive to your needs.

Sincerely,

Paul F. Collins, Chief
Operator Licensing Branch
Division of Project Management
