JAN 16 1980

Ms. Lana Connally  
6770 N. Baggett Road  
Douglasville, GA 30134

Dear Ms. Connally:

I am writing in response to your letter to Zbigniew K. Brzezinski regarding the safety of nuclear power plants. I regret that this answer to your letter has been delayed. The accident and its consequences have created a substantial increase in the agency's workload, which has prevented me from responding to you as promptly as I would have liked to.

Several NRC staff task forces have been organized to identify and evaluate safety concerns, which originated from the Three Mile Island accident, that merit consideration in the licensing actions for presently operating reactors as well as those for which operating licenses and construction permits are pending.

The task forces' reviews have disclosed a number of actions in the areas of design and analysis and plant operations that will be required in the short term to provide substantial additional protection of the public health and safety. All nuclear power plants in operation or under construction will be affected to varying degrees by the specific recommendations.

We appreciate your concern and assure you that every effort is being made to ensure the continued protection of the health and safety of the public, not only at the Three Mile Island Nuclear Station, but at all other nuclear power plants as well.

Sincerely,

Harold R. Denton, Director  
Office of Nuclear Reactor Regulation

Dear Ms. Connally:

Your letter to Dr. Erzezinski concerning the safety of nuclear power plants in the United States has been inadvertently referred to the Department of State for reply.

As we do not have jurisdiction over the matter you have raised, I am transferring your letter to the Nuclear Regulatory Commission for review by the appropriate officials. You should be hearing from them in the near future.

With best wishes,

Sincerely,

William D. Blair, Jr.  
Acting Assistant Secretary  
for Public Affairs

DEAR SIR,

My name is LANA Connally. I am a student at Douglas County High school. I am concerned about our involvement with nuclear power. We need to have better precautions if something goes wrong. I wonder if the tragedy of the three mile island could have been prevented?

I would like to know your views on nuclear power, please write and tell me.

Thank you

LANA CONNALLY
