Dear Mr. Hamann:

I am writing in response to your letter requesting information on Three Mile Island. I regret that this answer to your letter is too late for you to use in your report. The accident and its consequences have created a substantial increase in the agency's workload, which has prevented me from responding to you as promptly as I would have liked to.

Enclosed are copies of the summaries of NUREG-0558 and 0600. I am sorry I missed the deadline for your research project. Perhaps what I am sending can be used for some future project, or for general information.

Sincerely,

*151*

Harold R. Denton, Director  
Office of Nuclear Reactor Regulation
