JAN 14 1980

POOR ORIGINAL

SEE ATTACHED ADDRESSEE LIST

You are invited to participate in a meeting on January 29, 1980, with representatives of the Nuclear Regulatory Commission to discuss the scope of its programmatic environmental impact statement on the decontamination and disposal of radioactive wastes resulting from the March 23, 1979 accident at Three Mile Island Unit 2 (TMI-2). This discussion will begin at approximately 10:45 a.m., following the Pennsylvania Department of Environmental Resources sponsored briefing by the Metropolitan Edison Company on the current cleanup activities at TMI, which is scheduled for 9:00 a.m. on that day. Both events will be conducted in the Forum of the Education Building at Commonwealth and Walnut Streets, Harrisburg, Pennsylvania.

The Commission's Statement of Policy and Notice of Intent to prepare the programmatic environmental impact statement was published in the Federal Register (page 67733) on November 27, 1979. As stated in that notice, the preparation of this statement "will be in keeping with the purposes of the National Environmental Policy Act to engage the public in the Commission's decision-making process, and to focus on environmental issues and alternatives before commitments to specific clean-up choices are made." Further details of the Commission's policy on this subject may be found in the enclosed copy of the notice. A copy of the staff's preliminary outline for the statement is also enclosed.

Our purpose in conducting the meeting at Harrisburg on January 29 is to provide an opportunity for public officials and interested members of the public to provide suggestions on the scope of the statement and the issues which should be considered in depth. It would be helpful if oral comments are confirmed in writing. Written comments alone are also welcome and they should be submitted by February 15, 1980 to Daniel R. Muller, Acting Director for Division of Site Safety and Environmental Analysis, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

POOR ORIGINAL

JAN 14 1980

If further information is desired relative to the programmatic environmental impact statement on our plans for the meeting on January 29, please contact Paul H. Leech (301) 492-8444, Oliver Lynch, Jr. (301) 492-3438, or John Collins (717) 782-3955. Reference materials concerning TMI are available for inspection in the State Library Government Publication Section, Education Building, Commonwealth and Walnut Streets in Harrisburg, and at the York College of Pennsylvania (c/o Ms. Margaret Atwood) in York.

Plans are being made to hold an additional scoping meeting in the vicinity of the plant during February. When the arrangements have been made, a public announcement will be issued.

Sincerely,

Original signed by
Daniel R. Muller

Daniel R. Muller, Acting Director
Division of Site Safety and
Environmental Analysis
Office of Nuclear Reactor Regulation

Statement of Policy and Notice of Intent To Prepare a Programmatic Environmental Impact Statement

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Statement of Policy.

SUMMARY: The Nuclear Regulatory Commission has decided to prepare a programmatic environmental impact statement on the decontamination and disposal of radioactive wastes resulting from the March 28, 1979 accident at Three Mile Island Unit 2. For some time the Commission's staff has been moving in this direction. In the Commission's judgment an overall study of the decontamination and disposal process will assist the Commission in carrying out its regulatory responsibilities under the Atomic Energy Act to protect the public health and safety as decontamination progresses. It will also be in keeping with the purposes of the National Environmental Policy Act to engage the public in the Commission's decision-making process, and to focus on environmental issues and alternatives before commitments to specific clean-up choices are made. Additionally, in light of the extraordinary nature of this action and the expressed interest of the President's Council on Environmental Quality in the TMI-2 clean-up, the Commission intends to co-ordinate its action with CEQ. In particular, before determining the scope of the programmatic environmental impact statement the Commission will consult with CEQ.

The Commission recognizes that there are still areas of uncertainty regarding the clean-up operation. For example, the precise condition of the reactor core is not known at this time and cannot be known until the containment has been entered and the reactor vessel has been opened. For this reason, it is unrealistic to expect that the programmatic impact statement will serve as a blueprint, detailing each and every step to be taken over the coming months and years with their likely impacts. That the planned programmatic statement inevitably will have gaps and will not be a complete guide for all future actions does not invalidate its usefulness as a planning tool. As more information becomes available it will be incorporated into the decision-making process, and where appropriate supplements to the programmatic environmental impact statement will be issued. As the decontamination of TMI-2 progresses the Commission will make any new information available to the public and to the extent necessary will also prepare separate environmental statements or assessments for individual portions of the overall clean-up effort.

The development of a programmatic impact statement will not preclude prompt Commission action when needed. The Commission does recognize, however, that as with its Epicor-II approval action, any action taken in the absence of an overall impact statement will lead to arguments that there has been an inadequate environmental analysis, even where the Commission's action itself is supported by an environmental assessment. As in settling upon the scope of the programmatic impact statement, CEO can lend assistance here. For example should the Commission before completing its programmatic statement decide that it is in the best interest of the public health and safety to decontaminate the high level waste water now in the containment building, or to purge that building of its radioactive gases, the Commission will consider CEQ's advice as to the Commission's NEPA responsibilities. Moreover, as stated in the Commission's May 25 statement, any action of this kind will not be taken until it has undergone an environmental review, and furthermore with opportunity for public comment provided.

However, consistent with our May 25 Statement, we recognize that there may be emergency situations, not now foreseen, which should they occur would require rapid action. To the extent practicable the Commission will consult with CEQ in these situations as well.

With the help of the public's comments on our proposals we intend to assure, pursuant to NEPA and the Atomic Energy Act, that the clean-up of TMI-2 is done consistently with the public health and safety, and with awareness of the choices ahead. We are directing our staff to include in the programmatic environmental impact statement on the decontamination and disposal of TMI-2 wastes an overall description of the planned activities and a schedule for their completion along with a discussion of alternatives considered and the rationale for choices made. We are also directing our staff to keep us advised of their progress in these matters.

Dated at Washington, D.C. this 21st day of November 1979.

For the Commission.

Samuel J. Chalk,

Secretary of the Commission.

TENTATIVE OUTLINE FOR TMI-2 PROGRAMMATIC EIS

JAN 10 1980

SUMMARY

TABLE OF CONTENTS

1. INTRODUCTION

- 1.1 THE SCOPE AND PURPOSE OF THIS STATEMENT
- 1.2 BRIEF DESCRIPTION OF THE PLANT AND ITS HISTORY, THE MARCH 1979 INCIDENT, EVENTS SINCE THEN AND THE PRESENT STATUS OF THE PLANT
- 1.3 SUMMARY OF THE LICENSEE'S OBJECTIVES, PROPOSED ACTIONS, AND SCHEDULE
- 1.4 ISSUES IN CONTROVERSY RELATIVE TO THE PROPOSED ACTIONS

2. DESCRIPTION AND ANALYSIS OF THE MAJOR ALTERNATIVES

- 2.1 NO ACTION.
- 2.2 PARTIAL DECONTAMINATION TO THE LEVELS AT WHICH SOME TYPES OF DECOMMISSIONING CAN BE UNDERTAKEN (MOTHBALLING, ETC.)
- 2.3 DECONTAMINATION TO A LEVEL WHICH WOULD PERMIT EITHER RECONSTRUCTION OR DECOMMISSIONING
- 2.4 SHORT-TERM STORAGE OF SOLID WASTES ON SITE AND LATER SHIPMENT TO REPOSITORIES
- 2.5 LONG-TERM STORAGE OF SOLID WASTES ON SITE

3. THE POPULATION AND ENVIRONMENT WHICH MAY BE AFFECTED

- 3.1 LOCATION AND DESCRIPTION OF THE SITE (WITH ILLUSTRATIONS)
- 3.2 DEMOGRAPHY, LAND USE, AND OTHER SOCIO-ECONOMIC CONSIDERATIONS
- 3.3 WATER USE AND HYDROLOGY
- 3.4 GEOLOGY (IF NECESSARY)
- 3.5 METEOROLOGY
- 3.6 ECOLOGY

4. POST-ACCIDENT ACTIVITIES COMPLETED OR IN PROGRESS

4.1 MAINTENANCE OF THE REACTOR IN SAFE CONDITION

4.1.1 OBJECTIVES AND ACTIONS

4.1.2 MONITORING OF REACTOR AND CONTAINMENT INTEGRITY

4.1.3 DECAY HEAT REMOVAL

4.1.4 EFFLUENTS AND RELEASES TO THE ENVIRONMENT

4.1.5 ENVIRONMENTAL IMPACT

4.1.5.1 POSTULATED ACCIDENTS AND EFFECTS

4.1.5.2 OCCUPATIONAL EXPOSURE AND HEALTH EFFECTS

4.1.5.3 OFF-SITE EXPOSURE AND HEALTH EFFECTS

4.1.5.4 NONRADIOLOGICAL EFFECTS

4.2 DECONTAMINATION OF THE AUXILIARY AND FUEL HANDLING BUILDINGS

4.2.1 DESCRIPTION OF EFFORTS TO DATE AND STATUS OF THOSE TO BE COMPLETED

4.2.2 METHODS USED AND REASONS FOR THEIR SELECTION IF ALTERNATIVES WERE CONSIDERED.

4.2.3 ASSOCIATED PROCESSING/HANDLING FACILITIES CONSTRUCTED AND OPERATED (IF ANY)

4.2.4 EFFLUENTS AND RELEASES TO THE ENVIRONMENT

4.2.5 ENVIRONMENTAL IMPACT

4.2.5.1 POSTULATED ACCIDENTS AND EFFECTS

4.2.5.2 OCCUPATIONAL EXPOSURE AND HEALTH EFFECTS

4.2.5.3 OFF-SITE EXPOSURE AND HEALTH EFFECTS

4.2.5.4 NONRADIOLOGICAL EFFECTS

4.3 CLEANUP AND DISPOSAL OF RADIOACTIVE WATER IN THE AUXILIARY BUILDING

4.3.1 DESCRIPTION OF EFFORTS TO DATE AND STATUS OF THOSE TO BE COMPLETED

4.3.2 METHODS USED AND REASONS FOR THEIR SELECTION IF ALTERNATIVES WERE CONSIDERED

- 4.3.3 ASSOCIATED PROCESSING/HANDLING FACILITIES CONSTRUCTED AND OPERATED (IF ANY)
- 4.3.4 EFFLUENTS AND RELEASES TO THE ENVIRONMENT
- 4.3.5 ENVIRONMENTAL IMPACT
 - 4.3.5.1 POSTULATED ACCIDENTS AND EFFECTS
 - 4.3.5.2 OCCUPATIONAL EXPOSURE AND HEALTH EFFECTS
 - 4.3.5.3 OFF-SITE EXPOSURE AND HEALTH EFFECTS
 - 4.3.5.4 NONRADIOLOGICAL EFFECTS
- 4.4 DESLUDGING AND DECONTAMINATION OF AUXILIARY BUILDING SUMP AND TANKS
 - 4.4.1 DESCRIPTION OF EFFORTS TO DATE AND STATUS OF THOSE TO BE COMPLETED.
 - 4.4.2 METHODS USED AND REASONS FOR THEIR SELECTION IF ALTERNATIVES WERE CONSIDERED.
 - 4.4.3 ASSOCIATED PROCESSING/HANDLING FACILITIES CONSTRUCTED AND OPERATED (IF ANY).
 - 4.4.4 EFFLUENTS AND RELEASES TO THE ENVIRONMENT
 - 4.4.5 ENVIRONMENTAL IMPACT
 - 4.4.5.1 POSTULATED ACCIDENTS AND EFFECTS
 - 4.4.5.2 OCCUPATIONAL EXPOSURE AND HEALTH EFFECTS
 - 4.4.5.3 OFF-SITE EXPOSURE AND HEALTH EFFECTS
 - 4.4.5.4 NONRADIOLOGICAL EFFECTS
- 4.5 PROCESSING AND STORAGE OF SOLID WASTES FROM DECONTAMINATION OF THE AUXILIARY AND FUEL BUILDINGS AND AUXILIARY BUILDING WATER
 - 4.5.1 DESCRIPTION OF EFFORTS TO DATE AND STATUS OF THOSE TO BE COMPLETED
 - 4.5.2 METHODS USED AND REASONS FOR THEIR SELECTION IF ALTERNATIVES WERE CONSIDERED
 - 4.5.3 ASSOCIATED PROCESSING/HANDLING FACILITIES CONSTRUCTED AND OPERATED (IF ANY)
 - 4.5.4 EFFLUENTS AND RELEASES TO THE ENVIRONMENT

JAN 10 1980

4.5.5 ENVIRONMENTAL IMPACT

4.5.5.1 POSTULATED ACCIDENTS AND EFFECTS

4.5.5.2 OCCUPATIONAL EXPOSURE AND HEALTH EFFECTS

4.5.5.3 OFF-SITE EXPOSURE AND HEALTH EFFECTS

4.5.5.4 NONRADIOLOGICAL EFFECTS

5. DECONTAMINATION OF CONTAINMENT

5.1 BUILDING ATMOSPHERE CLEANUP

5.1.1 STATUS AND TIMING

5.1.2 ALTERNATIVE METHODS CONSIDERED AND REASONS FOR CHOICE

5.1.3 DETAILS OF THE SELECTED METHOD AND ASSOCIATED PROCESS/
HANDLING FACILITIES (IF ANY)

5.1.4 EFFLUENTS AND RELEASES TO THE ENVIRONMENT

5.1.5 ENVIRONMENTAL IMPACT

5.1.5.1 POSTULATED ACCIDENTS AND EFFECTS

5.1.5.2 OCCUPATIONAL EXPOSURE AND HEALTH EFFECTS

5.1.5.3 OFF-SITE EXPOSURE AND HEALTH EFFECTS

5.1.5.4 NONRADIOLOGICAL EFFECTS

5.2 INITIAL ENTRY, RADIATION MAPPING, AND DAMAGE ASSESSMENT

5.2.1 OBJECTIVES AND TIMING

5.2.2 ALTERNATIVE METHODS CONSIDERED AND REASONS FOR CHOICES

5.2.3 DETAILS OF THE SELECTED METHOD AND ASSOCIATED PROCESS/
HANDLING FACILITIES (IF ANY)

5.2.4 EFFLUENTS AND RELEASES TO THE ENVIRONMENT

5.2.5 ENVIRONMENTAL IMPACT

5.2.5.1 POSTULATED ACCIDENTS AND EFFECTS

5.2.5.2 OCCUPATIONAL EXPOSURE AND HEALTH EFFECTS

5.2.5.3 OFF-SITE EXPOSURE AND HEALTH EFFECTS

5.2.5.4 NONRADIOLOGICAL EFFECTS

- 5.3 SUMP WATER CLEAN UP
 - 5.3.1 STATUS AND TIMING
 - 5.3.2 ALTERNATIVE METHODS CONSIDERED AND REASONS FOR CHOICES
