

POOR ORIGINAL

August 8, 1979

Dear Sir:

I will sincerely appreciate your efforts in behalf of closing the nuclear plants at TMI. We have been driven from our home and job and have been living under a cloud since March. That might be bearable if it were not for what we are doing to our beautiful country and the threat to our children and their children. IT MUST STOP NOW!

Thank you for your help.

Sincerely,

Louise Heck & Family

POOR ORIGINAL

August 8, 1979

Dear Sir:

We are counting on you to shut down TMI. There is absolutely no justification to placing lives in danger now (as they are and have been) & even less in jeopardizing the lives of future generations by continuing this nuclear madness.

Please do what you can to stop it before it is never too late. Thank you.

Sincerely,

Louise Heck & Family

Dear Commissioner Bradford:

I sincerely urge your assistance in helping to permanently shut down TMI as a nuclear facility. The waste problems and other health hazards jeopardizing untold numbers of lives make it clear that there can be absolutely no justification for a continuation of this nuclear madness.

Thank you for your help in closing down TMI. Thank you.

Sincerely,

Louise Heck & Family

Dear Sir:

I urge your support in closing TMI as a nuclear facility.

Also, I would like to volunteer as a witness at one of your hearings in regards to TMI's duplicity regarding the recent dumping of 4,000 gallons of contaminated water into the River.

Thank you for your assistance.

Sincerely,

Louise Fleck
