

Kevin (and Bill Parker; David Evans)

I talked to Ernie Blake~~xxx~~ about our desire to get 1977 and 1978 tax returns for the four owners of TMI-2. He said he would speak with Jim Liberman, GPU's NYC counsel, and one of them would get back to us. I want to get a picture of how closely the company holds the returns (they might be publicly filed in rate proceedings, or they might be among the companies' most proprietary documents - - I honestly don't know) and I want to find out how big they are, in numbers of pages.

Ernie didn't~~txxxx~~ know the answers to these questions either, but he suggested that if they were very proprietary we might work out an opportunity for us to review the returns for items that interested us, rather than take copies of entire returns. I said I thought for the moment that might be sufficient.
