MEMORANDUM FOR: All Task Force Leaders

FROM: Pat Norry

SUBJECT: RECEIPT OF MET ED DOCUMENTS FROM TMI SITE

We have begun receiving hard copies of Met Ed documents from the TMI site in batches of 50 to 100 documents. We are screening these documents, broadly categorizing them, and placing them on the shelves in Bay 2 for your examination.

We have given you a copy of the TMI document list prepared by I&E. You can check your document lists against the cover sheets of the documents on the shelves and check out any document you may be interested in. Please use the sign out card so that we may keep track of documents in the event that more than one person or Task Group needs the document. Because of space and floor loading concerns, there is only one copy of each document. Should you require a copy of pages of the document, please copy them and make certain that the Master document is returned to shelf intact.

Since documents arrive several times a day, please be advised to check the shelves at least once a day.
