## PREI IMIGARY ROTIFICATION

lebruary 7, 1980

PRELIMINARY HOTIFICATION OF LYENT OR UNUSUAL OCCURRENCE -- PNO-1MI-80-02

This preliminary notification constitutes LARLY notice of events of POSSIBLE safety or public interest significance. The information presented is as initially received without verification or evaluation and is basically all that is known by IE staff on this date.

Tacility: Metropolitan Edison Company
Three Mile Island, Unit 1 and Unit 2
Middletown, Pennsylvania
Docket Humber 50-289 and 50-320

POOR ORIGINAI

Subject: EX-WATCHMAN INFORMS TELEVISION MEDIA OF THE PAPERS

A watchren, who no longer works at TMI. informed the local media that he had important licensee papers obtained from the TMI site. The papers amounted to be approximately 1/2 inch thick. The individual claimed that he found them and did not steal them.

The licensee reclaimed the papers from the individuals' residence and immediately reviewed them. Results of the review indicated that the papers were documents which could be found in a Public Document Room (PDR) and were internal memoranda of a non-confidential nature.

Review of these papers by NRC staff appears to confirm the licensee's results. No further review is planned.

The licenses is responding to press inquires. NRC does not plan to issue a press release.

The Commonwealth of Pennsylvania has been informed.
