Dr. Edward O'Donnell  
Site Safety Standards Branch  
Office of Standards Development  
U. S. Nuclear Regulatory Commission  
Washington, DC 20550

Dear Dr. O'Donnell:

We have reviewed the draft report entitled "Characterization and classification of geologic faults in the Appalachian foldbelt." This would appear to be a significant contribution to the understanding of the structure of the folded Appalachians as well as to fault classification.

We have no comments to make to improve this report.

Sincerely yours,

C. W. Hendry, Jr., Chief  
and State Geologist
