## Woodward-Clyde Consultants

21 November 1979

Mr. Edward O'Donnell, Geologist  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

NL 5650

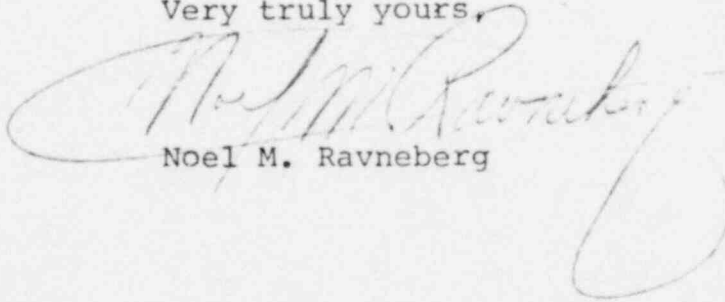

Dear Mr. O'Donnell:

The draft report "Characterization and Classification of geologic faults in the Appalachian foldbelt" has made a partial round through two people in my office.

We hope you will give us another couple of weeks before we return our comments.

We are finding the report very interesting and are pleased to be included in your review group.

Very truly yours,

  
Noel M. Ravneberg

NMR/dcd

*12/1/79 Ravneberg said they'd finalize their comments by the end of the week.*
