Environmental Projects - Branch 2  
7920 Norfolk Avenue  
Mail Stop P-522  
Bethesda, Maryland 20014

Dear Mr. Leech:

Enclosed please find information that was requested of our Mr. Mike Morrell during the Argonne National Laboratory meeting held on January 17, 1980. This information is required in support of your efforts on the development of the Programmatic Environmental Impact Statement.

Each enclosed item is specified below.

1. Green and Yellow Books - plant Piping and Instrument Diagrams - three each included.
2. Reactor Building Sump sample results - enclosed.
3. Core inventory, ORIGEN code calculations - ORIGEN code calculations have been performed by B&W. A copy of the results of these calculations have been provided to Mr. Jay Lee of NRC.
4. Beta/Gamma dose calculations based on the results of previously conducted experiments - enclosed.
5. Estimate of core damage/release fraction - later.
6. Estimate of release to environment - enclosed in Technical Data Report #116.
7. Swipe results from the containment interior as obtained through the R626 penetration - enclosed.
8. Beta/Gamma readings of the containment interior as obtained through the R626 penetration - enclosed.
9. Temperature/pressure data for the reactor containment building atmosphere - enclosed.

Should you have any questions or comments regarding the enclosures, please contact me.
