Dear Mr. Hendrix,

I appeal to you
to close TMI for
good. I am afraid of
going through another
night more of what
happened Mar 28th and
near methadone. I only
live with in 5 miles of
it. You don't have to
worry too much since
you are many miles
from it. But let them
vent those gases into
atmosphere because they
will be blowing your way too
Sincerely, Mrs. V. Hartman
