Dear Mr. Leech:

In your letter dated February 14, 1980, you requested a breakdown of costs associated with certain activities related to TMI-II containment recommissioning. Further, you requested that this cost breakdown be related to the activities shown in the Summary Technical Plan of December 12, 1979.

The activities indicated on the enclosure to your letter, and the costs associated with these activities, are presented to indicate a preliminary assessment of these costs only. Insofar as a breakdown of these costs-- that breakdown exists. However, because of its preliminary nature, we do not consider these cost estimates to be precise. Currently, a refined cost estimate (including the breakdown of the costs) is being prepared and will be available on or about July 1, 1980. It will be provided to you at that time.

Sincerely,

L. V. Lehman, Jr.
Licensing Engineer
