Dear Joe:

It was extremely gracious of you to write and share with me your views on our report on the accident at Three Mile Island.

After having taken on the investigation I knew that there were going to be areas in which we would not agree. I also knew when you retained us, you were prepared for us to paint the portrait as we saw it -- warts and all. As a consequence, neither of us have cause for disappointment.

You gave us full rein and jealously protected our independence. I deeply appreciate the spirit in which this was done.

Cheers,

*Mitch*
