Docket No. 50-320

RELATED CORRESPONDENCE

Mr. R. C. Arnold
Senior Vice President
Metropolitan Edison Company
100 Interpace Parkway
Parsippany, New Jersey 07054

Dear Mr. Arnold:

Subject: Three Mile Island Nuclear Station Unit II (TMI-2) Annual
Emergency Radiation Drill

Reference: Met-Ed letter, TLL 035, R. F. Wilson to J. T. Collins, dated
January 30, 1980

In accordance with the referenced letter, we concur with your program to correct the major material and personnel problems identified during the conduct of the Unit 2 Casualty Drills in January 1980.

These problems were discussed in detail with your staff during the exit meeting for inspection report 80-01. As discussed with your staff we believe that it is premature to judge the conduct of these drills as satisfactory as noted in the referenced letter.

We believe that a concerted effort is needed to correct these items prior to the next drill, scheduled for completion before March 31, 1980. We will review the corrective measures taken for resolution of the identified problems before the next scheduled drill.

Your attention to this matter is appreciated.

John T. Collins
Deputy Director
