Mr. Harold R. Denton, Director
Nuclear Reactor Regulation Office
1717 H Street, N. W.
Washington, D. C. 20555

Dear Mr. Denton:

This letter is to advise that I am strongly opposed to the decision your office made on November 5th to stop processing permits and operating licenses for nuclear power plants.

It is my opinion that this decision should be reversed immediately.

Very truly yours,

Ralph Eads
