

TERA

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

February 25, 1980

Mrs. Leo A. Drey
515 West Point Avenue
University City, Missouri 63130

Dear Mrs. Drey:

Your letter to the Office of the Chief Counsel, Nuclear Regulatory Commission, has been referred to me for response. Your letter requested discussions of the pilot operated relief valve contained in two reports prepared by the Office of the Chief Counsel to the President's Commission appointed to investigate the accident at the Three Mile Island Nuclear Facility. These reports were referenced in footnote 11 on page 162 of "The Report of the President's Commission on the Accident at Three Mile Island" published in October 1979. The particular reports are entitled "The Report of the Office of Chief Counsel on the Role of the Managing Utility and Its Suppliers" and "The Report of the Office of Chief Counsel on the Nuclear Regulatory Commission."

I have been informed that the reports you requested are available in the Nuclear Regulatory Commission's Public Document Room. Consequently, I have requested that copies of the reports be sent to you and, in order to facilitate the matter, I have forwarded your request to the appropriate person in the Office of the Secretary, Public Document Room.

Sincerely,

Colleen P. Woodhead
Counsel for NRC Staff
