

DRESSER INDUSTRIES, INC.
PACIFIC PUMPS DIVISION
HUNTINGTON PARK, CALIFORNIA 90255

D. B. HARNEY
PRESIDENT

December 19, 1979

Mr. Harold R. Denton, Director
Nuclear Reactor Regulation Office
Nuclear Regulatory Commission
1717 H Street, N. W.
Washington, D. C. 20555

Dear Mr. Denton:

Our current energy situation makes it imperative that the November 5, 1979 decision by the NRC to stop issuing construction permits and operating licenses be rescinded. The nuclear industry has responded to the Three Mile Island incident in a responsible manner and nuclear power is our safest source of non-polluting energy.

The nuclear plants now held up would save ten million barrels of oil yearly, and with the current oil price situation their startup would be an important item in our fight against inflation.

I would appreciate your all-out effort to speed up the completion of the plants affected by this November 5, 1979 freeze.

Sincerely,

DBH/dw
