Gentlemen:

This will acknowledge receipt of your Reno Creek Project restoration notification letter of January 3, 1980.

A detailed report concerning the progress of your activities and future plans following the 30-day groundwater sweep phase will be expected. This may be as an addendum to your quarterly report.

Since these studies may result in commercial-scale operations at this site, complete and accurate data from the restoration activities should be obtained to support such a proposed activity.

If you have any questions regarding this matter, please contact me or Dr. Cooperstein of my staff (301/427-4103).

Sincerely,

Ross A. Scarano, Chief
Uranium Recovery Licensing Branch
Division of Waste Management
