

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

TERA

March 13, 1980

Docket No. 50-312

Mr. J. J. Mattimoe  
Assistant General Manager and  
Chief Engineer  
Sacramento Municipal Utility District  
6201 S Street  
P. O. Box 15830  
Sacramento, California 95813

Dear Mr. Mattimoe:

In our Fire Protection Safety Evaluation Report (SER) for Rancho Seco dated February 28, 1978, we identified many items for which we needed information on the design of modifications which you had committed to make to plant equipment prior to implementation of the modifications.

By letter of March 7, 1980, you provided a revised cable tray firestop design for use inside containment. This revision contained minor changes to the design proposed in a letter of October 17, 1978, and approved by us in a letter to you of December 14, 1978. We have reviewed these minor changes and find that these will not affect the performance of the firestop in preventing propagation of a fire. Accordingly, we find the design proposed in the March 7, 1980 letter to be acceptable.

Sincerely,

A handwritten signature in cursive script that reads "Robert W. Reid".

Robert W. Reid, Chief  
Operating Reactors Branch #4  
Division of Operating Reactors
