Mr. Gerard Helfrich, Director

Environmental and Scientific Affairs
U.S. Department of State

Dear Mr. Helfrich:

Enclosed please find an application from General Electric Company for a license to export 239,000 kilograms uranium enriched to 4.0% uranium-235 for use as initial fuel cores for the Taiwan Power Nuclear Units 7 and 8.

Before taking action on this license application, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the issuance of the requested license would be inimical to the interests of the United States, including the common defense and security, and whether the proposed export meets the applicable criteria in the Atomic Energy Act as amended by the Nuclear Nonproliferation Act of 1978.

Sincerely,

A handwritten signature in dark ink, appearing to read "Marvin R. Peterson".
