UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

MAR 17 1980

Mr. William J. Scanlon
Special Joint-Committee on Nuclear Energy
House of Representatives
Room 419
State Capitol
Lansing, Michigan 48901

Dear Mr. Scanlon:

This is a partial response to your February 4 request for documents. Your name has been added to distribution lists for copies of documents routinely distributed to agencies in the Executive Branch of State government in Michigan. If you can identify the NRC documents you want, which have been sent to those agencies in the past, I will obtain copies for you. The communications you requested in items 1 and 2, page 2 are enclosed.

With respect to materials licenses, due to the volume of licensing actions and related correspondence, it is not feasible to add your name to all correspondence. Nor would NRC be able to determine precisely what licensing actions would in some general way impact the State of Michigan. The Materials Licensing Branch, Office of Nuclear Material Safety and Safeguards provides copies of all licenses issued to applicants in Michigan to the Division of Radiological Health, Michigan Public Health Department. I suggest that you contact them.

In order to comply with item 1, page 3, the documents you want would have to be identified in a very specific manner, as opposed to the all encompassing request. With respect to item 2, I am enclosing a list of licensees authorized to pick up radioactive waste from licensed facilities in the United States.

Currently the NRC, Division of Waste Management has received no applications for either a low-level waste disposal facility or a high-level waste repository in Michigan or elsewhere. If an application is submitted, you will be notified. The mining of uranium is not within NRC's regulatory purview. It is within the purview of the State. At present, NRC is not aware of any such actions in Michigan.

Most of the information you are requesting is already in Michigan. I urge you to contact the Executive Agencies and request copies of the documents. I'm also enclosing a list of the public document rooms in Michigan where all correspondence and documents related to licensing actions in Michigan are placed.

8004020089

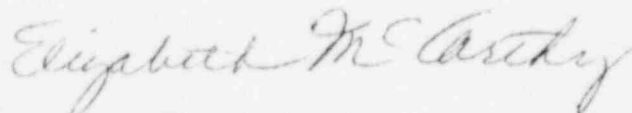

W. Scanlon

I still owe you a response to item 1, page 1; and item 1, page 2.

Sincerely,

Elizabeth McCarthy
State Relations Assistant
Office of State Programs
