Gentlemen:

We have received your letter dated January 29, 1980 concerning construction and use of a building and equipment for water deionization. We agree that the environmental impact of the proposed action, which does not involve radioactive material, is covered by your existing environmental report and that amendment of your special nuclear material license is not required.

We will file the description of the "Deionized Water Building and Storage" with the safety demonstration for license SNM-1107.

Sincerely,

Original signed by:
