Re: Peach Bottom Atomic Power Station Units 2 and 3  
Docket Nos. 50-277 and 50-278

Dear Dr. Denton:

Enclosed for filing with the Commission are three originals and 37 copies of Philadelphia Electric Company's Application for Amendment of Facility Operating Licenses DPR-44 and DPR-56. This Application requests several changes to the Peach Bottom Technical Specifications, some of which are editorial in nature and others of which are to conform the Technical Specifications to the standard technical specifications for boiling water reactors.

Pursuant to Section 170.12 of the Commission's regulations, there is enclosed a check payable to the United States Nuclear Regulatory Commission in the amount of \$4,400 to cover the filing fee for this Application.

Very truly yours,

  
Eugene J. Bradley
