APR 3 1980

Docket No. 50-206/80-07

Southern California Edison Company
2244 Walnut Grove Avenue
Rosemead, California 91770

Attention: Dr. L. T. Papay, Vice President
Advanced Engineering

Gentlemen:

Subject: NRC Inspection - San Onofre Nuclear Generating Station Unit 1

This letter refers to the inspection of your activities authorized under NRC License No. DPR-13 conducted by Mr. E. J. Power of this office on March 18-21, 1980. It also refers to the discussion of our inspection findings with Mr. J. M. Curran and members of his staff on March 21, 1980.

The inspection included examination of activities related to physical protection against industrial sabotage and against theft of special nuclear material in accordance with applicable requirements of Title 10, Code of Federal Regulations, Part 73, "Physical Protection of Plants and Materials," your security plan, and license conditions pertaining to physical protection as described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and records, interviews with facility personnel and observations by the inspectors.

Within the scope of this inspection, no items of noncompliance were observed.

In accordance with Section 2.790(d) of the NRC "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, documentation of the findings of your safeguards and security measures are exempt from public disclosure; therefore, the enclosed inspection report will not be placed in the Public Document Room.
