

March 26, 1980

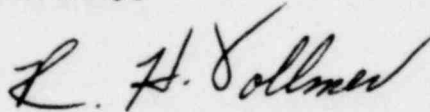

New Jersey Bureau of Radiation Protection
380 Scotch Road
Trenton, New Jersey 08628

Attn: Gene Fisher, Bureau Chief

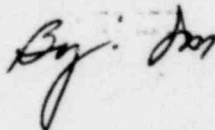

Dear Mr. Fisher:

As a result of our phone conversation today, enclosed are two copies of the Commission paper and Environmental Assessment dealing with the issue of decontaminating the Three Mile Island-2 reactor building atmosphere. If the Commission does decide to authorize purging of the krypton into the atmosphere, we will provide the State of New Jersey advance notice.

Sincerely,

Richard H. Vollmer, Director
Three Mile Island Support

Enclosure:

- 1. SECY-80-132
- 2. NUREG-0662 and Addendum 1
