OFFICE OF  
INTERNATIONAL  
PROGRAMS

MAR 28 1980

Mr. James R. Shea, Director  
Office of International Programs  
U.S. Nuclear Regulatory Commission  
8103 Maryland National Bank Building  
Washington, D.C. 20555

Dear Mr. Shea:

Enclosed are applications for the export of low enriched uranium to NUKEM and CERCA for your consideration. Also enclosed is background information concerning the use of the material.

It would be appreciated if you could expedite this application as quickly as possible. The material is to be used to fabricate reduced enrichment fuel elements for the DOE Reduced Enrichment Research and Test Reactor program. As you know, this program supports the U.S. policy to reduce world traffic and inventories of highly enriched uranium.

Please direct any questions to Mr. T. Hart, 252-6183.

Sincerely,

*Harold D. Bengelsdorf*  
Harold D. Bengelsdorf  
Director for Nuclear Affairs  
International Nuclear and  
Technical Programs
