Re: In The Matter Of Consumers Power Company
(Big Rock Point Nuclear Power Plant),
Docket No. 50-155

Gentlemen:

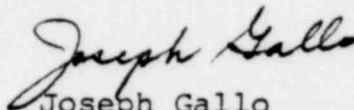

Consistent with the tenets of full disclosure as articulated by the Atomic Safety and Licensing Appeal Board in McGuire,* Licensee is submitting the enclosed letter for the information of the Licensing Board and the parties. The letter, dated March 14, 1980, from David P. Hoffman to Dennis L. Ziemann of the NRC provides further information concerning the Company's response to certain NRC requirements resulting from post-TMI evaluations.

* Duke Power Company (William B. McGuire Station, Units 1 and 2), ALAB-143, 6 AEC 523, 625-26 (1973).

8004210401

It is the Company's view that none of the matters discussed in Mr. Hoffman's letter is relevant to the proposed expansion of the capacity for the Big Rock Point spent fuel pool -- the subject of the above-captioned proceeding. Nevertheless, the letter is being submitted consistent with the Company's policy of complete disclosure.

Sincerely,

A handwritten signature in cursive script that reads "Joseph Gallo".

Director, Nuclear Reactor Regulation
Attn Mr Dennis L Ziemann, Chief
Operating Reactors Branch No 2
US Nuclear Regulatory Commission
Washington, DC 20555

DOCKET 50-155 - LICENSE DPR-6 - BIG ROCK POINT
PLANT - SHORT-TERM LESSONS LEARNED FROM THREE
MILE ISLAND ACCIDENT: ADDITIONAL INFORMATION
REQUESTED DURING SITE VISIT

An NRC inspection team under the direction of Mr Charles Long visited Big Rock Point February 28 and 29, 1980. This team reviewed actions taken at Big Rock Point in response to NRC requirements resulting from review of the accident at Three Mile Island (TMI). As a result of this review, Consumers Power Company agreed to provide certain additional information and documentation.

Enclosure 1 to this letter provides responses to the specific items of additional information requested during the NRC site visit.

Enclosure 2 provides Revision 2 to the enclosure of Consumers Power Company's December 27, 1979 letter describing actions to be taken in response to post-TMI requirements. (Revision 1 was submitted by Consumers Power Company letter dated January 18, 1980.) Revision 2 updates our response to include the additional information discussed in Enclosure 1 to this letter. Revision 2 also makes minor changes reflecting the completion of certain actions committed in the original response, and incorporates deferral of certain modifications pending a plant risk assessment as discussed in Consumers Power Company letter dated February 22, 1980.

David P Hoffman (Signed)

David P Hoffman
