

I

~~16~~ 16 Rusley Drive (41)
Middletown, Penna 17057
Dr. Fine June 30, 1979

Sir,

My husband & I attended the meeting on the night of June 29th in Middletown.

We truly appreciated Mr. Gilinsky & Congressman Eitel listening to our dilemma on T.M.D.

The majority of the residents & surrounding areas of Middletown do not wish to have T.M.D. to reopen.

Mr. Gilinsky stated many times that night that when the Commissioners will get together their first objection is for the safety & health of the people. Doesn't Mr. Gilinsky realize

11 that the reopening of TMD will ⁴¹
get people sick (they are frightened to
death). A doctor or a lawyer can
have their licences taken away
for any injustice they have committed
& get Med-Ed for the great injustice
they have done to thousands of people
they still have their licence. (Is money
that important if it is then they have
no consciences)

We know that hundreds of gallons
of water enters the reactor, where does
this water go? How is it disposed of?
& where? Also what happens in the
winter when the water freezes &
puts pressure on the walls?

#11 They don't know how to get rid of
the waste they now have & yet
they want to reopen Unit I. If
T.M.I. is reopened I for one will
always have my suitcases packed
& every time a siren goes off I
will die a thousand deaths. What
a terrible way to have to live as I
write this down I cannot believe
I live in the U. S. A.

We worked very hard to have a
decent home and a decent home life
with our son, my daughter-in-law
& our two grandchildren ages 4 & almost
one. It is for my grandchildren I
write to you. Please give them a

✓ chance to live a full healthy & 40
happy life.

I don't know you personally
Mr. Hendrie but any man whose
name is Joseph can't be all bad.

Sincerely yours
Mrs. Maria Lombino
