You have no right to permit the  
release of Radio-active water at  
3-Mile Island. I strongly doubt  
your interest in public safety and  
health & believe that you are  
trying to save the industry no  
matter what happens to the  
public.

How dare you put me in  
a position where my health  
& children's health and the  
welfare of future generations  
will be destroyed !!

Rescind permission to  
dump radioactive water

~~IMMEDIATELY !!~~

Mrs. M. Broude
