To the NRC legal staff c/o Janice Moore
Chairman of the At. Lic. Committee H. Grossman
Council for Consumer Powers J. Gallo

Ref. Docket # 50-155

The intervenors classified under Christa-Maria st.all request from all participating parties to adress all correspondance in a matter that can be commonly understood.

We work closely with our legal council but do a lot of thw work in this case ourselves, thereby it is of utmost importance that we understand the correspondance adressed to our case.

The cost to call legal council for very interpretation of correspondance is becoming prohibitive .

Of great help would be a closing summary statement that adresses the specific way and time scope we are required to answer. There has been great confusion on our part on this issue.

Should the legal staff have a simple brochure or literature on the 10 MCFR rules so often refered too we would appreciate a copy or some material of this.

It was for lack of knowledge that the recen telegram by the Concerned Citizens was adressed to the BOARD.Our apologies, we want well and are terribly concerned about that particular issue.

Please understand that we all have fulltime jobs and families to take care off but we work an average each of 30 hours a week to understand the issues present with Big Rock and are very willing to go along with the rules and regulations the NRC has established concerning the matter of intervening as long as we understand them.

Thank you,

Christa-Maria
