Gentlemen:

In accordance with the request in the letter from Mr. Raymond to Mr. Dircks dated December 17, 1979, withdrawing your license application for the Experimental Test Facility, we have discontinued activities on the application and placed Docket 70-2219 in inactive status.

Furthermore, we are returning the proprietary documents submitted in support of the application. The enclosures include all copies of the proprietary documents except one copy of XN-EL-29 Supp. dated May 1976. As far as we can determine, the fourth copy of that document was destroyed. We know of no NRC-generated documents which contain JNAI proprietary data. We will retain one copy of each non-proprietary document submitted in support of your application and destroy the remaining copies.

Sincerely,

Original signed by:
