Professor Ralph A. Llewellyn  
Chairman  
Department of Physics  
Indiana State University  
Terre Haute, Indiana 47809

Dear Professor Llewellyn:

This is in reply to your letter of June 14, 1979, to the Chairman of the Nuclear Regulatory Commission asking for reports on the Three Mile Island accident. I am sorry for the long delay in responding, but we have been very busy with the aftermath of that accident.

Enclosed for your use are the following reports:

"Population Dose and Health Impact of the Accident at the Three Mile Island Nuclear Station," NUREG-0558, May 1979

"Report of the President's Commission on the Accident at Three Mile Island," October 1979

"Three Mile Island: A Report to the Commissioners and to the Public," by an NRC Special Inquiry Group, Volume I, January 1980.

I hope that these will still be helpful to you.

Sincerely,

A handwritten signature in cursive script that reads "Harold R. Denton".

Harold R. Denton, Director  
Office of Nuclear Reactor Regulation

Enclosures:  
As stated
