Docket No. 50-29

Mr. James A. Kay
Senior Engineer-Licensing
Yankee Atomic Electric Company
25 Research Drive
Westborough, Massachusetts 01581

Dear Mr. Kay:

Enclosed is the staff's evaluation of the implementation of Category "A" Lessons Learned requirements (excluding 2.1.7a) at Yankee-Rowe. This evaluation is based on your submitted documentation and the discussions between our staffs at a site visit on April 2, 1980.

Based on our evaluation, we conclude that the implementation of the Category "A" requirements at Yankee-Rowe, is acceptable. Certain items, identified in the evaluation, will be verified by the Office of Inspection and Enforcement.

This evaluation does not address the Technical Specifications necessary to ensure the limiting conditions for operation and the long-term operability surveillance requirements for the systems modified during the Category "A" review. You should be considering the proposal of such Technical Specifications. We will be in communication with you on this item in the near future.

Sincerely,

for *Thomas V. Wambach*
Dennis L. Ziemann, Chief
Operating Reactors Branch #2
Division of Operating Reactors
