OFFICE OF THE
SECRETARY

Docket No. 50-409
(2.206)

Ms. Anne K. Morse
P. O. Box 1583
La Crosse, Wisconsin 54601

Dear Ms. Morse:

On April 10, 1980, the Commission extended the time for consideration of the Director of Inspection and Enforcement's denial of your request for enforcement action against the operating license for La Crosse Boiling Water Reactor. That time period has now elapsed without the Commission taking any action to review the decision in whole or in part. Therefore, the decision of the Director, pursuant to 10 CFR 2.206(c)(1), is the final agency action in this proceeding.

In connection with his concurrence in no review, Commissioner Bradford provided the following comment:

"I am not comfortable with the decision on Appendix J failures, but I don't believe that that issue warrants further attention in the context of this reactor since it is apparently to be decommissioned."

Sincerely,

Samuel J. Chalk
Secretary of the Commission
