Mr. Dayton Hill
622 Ximeno Avenue
Long Beach, California 90814

Dear Mr. Hill:

Thank you for your telephone call of April 9, 1980 with the suggestion about using weather balloons to dispose of the krypton gas from the reactor building at Three Mile Island, Unit 2. I have forwarded your suggestion to my staff, which is now evaluating comments before making a recommendation to the Commission on removal of the krypton.

In the meantime, I am enclosing for your information copies of NRC's "Environmental Assessment for Decontamination of the Three Mile Island Unit 2 Reactor Building Atmosphere" (NUREG-0662), and two Addenda. I appreciate your interest in this matter.

Sincerely,

A handwritten signature in dark ink, appearing to read "B. Snyder".

Bernard J. Snyder, Program Director
TMI Program Office

Enclosures:
NUREG-0662 and two Addenda
