Mr. Eddie Vasser
Route 1, Box 146
Jones, Alabama 36749

Dear Mr. Vasser:

This is in response to your undated letter concerning the proposed Westinghouse fuel fabrication plant near Prattville, Alabama.

Questions Nos. 1 and 2 in your letter, concerning the siting alternatives for the proposed plant, will be addressed in the Draft Environmental Impact Statement (DEIS). With respect to Question No. 3, the NRC Regional Office of Inspection and Enforcement normally conducts routine inspections to ensure compliance to the license at a facility such as the proposed Westinghouse plant.

The environmental impact from routine plant operation, as well as various types of accidents, will also be discussed in the DEIS (Questions 5 thru 8).

Since you have expressed an interest, we will add your name to the distribution list for the DEIS.

Sincerely,

A handwritten signature in cursive script, appearing to read "Edward Y. Shum".
