Mr. D. Louis Peoples
Director of Nuclear Licensing
Commonwealth Edison Company
P. O. Box 767
Chicago, Illinois 60690

Dear Mr. Peoples:

SUBJECT: FIRST ROUND QUESTIONS ON THE BYRON AND BRAIDWOOD OL APPLICATION

In our review of your application for operating licenses for the Byron Station, Units 1 and 2, and the Braidwood Station, Units 1 and 2, we have identified a need for additional information which we require to complete our review. The specific requests contained in the enclosure to this letter are the sixth set of our round one questions and cover some of the areas of our review performed by (1) the Auxiliary Systems Branch, (2) the Reactor Systems Branch and (3) by the Instrumentation and Control Branch.

In responding to our fourth set of first round questions enclosed with our letter of November 8, 1979, please renumber the Reactor Systems Branch questions from 212.1 through 212.75 inclusive to 212.12 through 212.86 inclusive. This will eliminate a duplication of the numbers 212.1 through 212.11 used in the enclosure to our letter of October 20, 1978, "Results of Byron and Braidwood Acceptance Review".

Please contact us if you desire any discussion or clarification of the enclosed requests.

Sincerely,

L. S. Rubenstein, Acting Chief
Light Water Reactors, Branch No. 4
Division of Project Management
