Mr. Harold Denton
U.S. Nuclear Regulatory Commission
Washington D.C., 20555

Dear Mr. Denton:

This letter is concerning the recent accident at the Three Mile Island nuclear Plant, and the release of radiation into the air. From what I understand the public was not fully advised of the dangers that was caused during this incident. My family and I were forced to make our own decisions and accusations during the whole "disaster". I am fourteen years old and my generation is faced with making many decisions that will affect our future in many ways. I feel that the Three Mile Island Nuclear Plant

80421502

should be closed down, in case
of future accidents.

Thank-You
Beth Wickerham
Beth Wickerham.
