Dear Sir:

I am presently a junior at Davison High School in Davison, Michigan, and enrolled in a Chemistry course. As a requirement of my Chemistry class, I must write a final report on the topic of my choice--provided that the topic is related to Chemistry. For my topic, I have chosen Nuclear Reactor Safety.

I would greatly appreciate any help you could give me in the way of pamphlets, brochures, or reports on Nuclear Power and Nuclear Reactor Safety. Anything you could send me on the recent disaster at Three Mile Island would be a tremendous asset to my report.

Once again, I thank you for the help you will give me on the subject of Nuclear Reactor Safety.

Thank You,
Jim Jablonski
