SUMMARY

Inspection Summary

Areas Inspected: An inspection was made of the WMD measurement control program and independent inspection effort.

The inspection involved 74 inspector-hours onsite by two NRC inspectors and was begun during the regular hours.

Results: The licensee was found to be in compliance with NRC requirements in the two areas examined during the inspection except for the following two items:

1. Failure to establish control chart limits equivalent to .05 and .001 levels of significance.
2. Failure to calibrate the elephant gun using four standards.
