Docket No. 40-8698

AUG 03 1979

MEMORANDUM FOR: Ross Scarano, Acting Branch Chief
Uranium Recovery Licensing Branch, NMSS

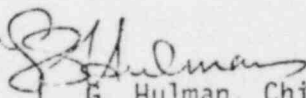

FROM: L. G. Hulman, Chief
Hydrology-Meteorology Branch, DSE

SUBJECT: HYDROLOGIC ENGINEERING SUMMARY - TAC #5063

PLANT NAME: Shootering Canyon Uranium Project
LICENSING STAGE: Construction Permit
RESPONSIBLE BRANCH: Uranium Recovery Licensing Branch
REVIEW STATUS: Hydrologic Engineering Section (HMB) - Complete

Attached is a Hydrologic Engineering Summary for subject tailings system, prepared by R. Gonzales.

The documents submitted by the applicant which we reviewed are among the best we've seen with respect to the Hydrologic aspects of Regulatory Guide 3.11. The completeness of the applicant's reports and satisfactory responses to our first round of questions allowed us to eliminate the second round of questions and to submit this summary ahead of schedule.

L. G. Hulman, Chief
Hydrology-Meteorology Branch
Division of Site Safety and
Environmental Analysis
