BETREFT NRC - Reports.

Dear Mr. Hopkins,

I should greatly appreciate to receive a copy of
the following NRC- Reports :

- NUREG/CP-0001, " Radioactivity in consumer products"
- NUREG - 0535, " Adequacy of existing requirements for
the shipment of low level radioactive wastes"
- NUREG - 0149, " Calculations of radiological conse-
quences from sabotage of shipping casks for spent fuel
and high level wastes".

I should be very grate ful if you would be so kind to
put my name on a mailing list for NRC-publications relating to the trans-
portation of radioactive materials and to emergency response plans.

Thanking you very much in advance, I remain,

Yours sincerely,

L. BAEKELANDT,
Inspector.
