UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

P

APR 25 1980

Docket Nos. 50-289
and 50-320

The Nuclear Regulatory Commission has received reports on a variety of animal health problems which have been attributed to the operation and/or accident at the Three Mile Island Nuclear Power Plant. Examples of reported animal health problems include increases of livestock stillbirths, abortions, and nutritional deficiency symptoms. We are seeking your assistance together with all the veterinarians servicing York, Dauphin, Lancaster, Cumberland, and Lebanon Counties in identifying any new or unreported animal health problems which may be attributable to the operation and/or accident at Three Mile Island Nuclear Power Plant.

If you have such data or information, we would appreciate it if you would contact Gerry Gears at (301) 492-8280 or Dr. Gerry LaRoche at (301) 492-8289 by May 9, 1980. You may call us collect at the above numbers.

We wish to thank you for any assistance you may wish to provide us and look forward to your response.

Sincerely,

A handwritten signature in cursive script that reads "Daniel R. Muller".

Daniel R. Muller, Acting Director
Division of Site Safety and
Environmental Analysis
Office of Nuclear Reactor Regulation
