Gentlemen:

This refers to the inspection conducted by D. E. Moore of this office on April 8 through 9, 1980, of activities authorized by NRC License No. ISNM-1698 from Portsmouth Marine Terminal to Savannah River Plant and to the discussions of our findings held with W. G. Stoneburner at the conclusion of the inspection.

Areas examined during this inspection included your program for safeguarding special nuclear material under the applicable provisions of Title 10, Code of Federal Regulations, Part 73, "Physical Protection of Plants and Materials" and the specific requirements of license conditions and your approved Security Plan. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, performance tests, and observations by the inspectors.

Within the scope of this inspection, no items of noncompliance were disclosed.

In accordance with Section 2.790(d) of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, activities involving safeguards and security measures are exempt from public disclosure; therefore, the enclosed inspection report with the exception of the report cover page, which is an inspection summary, will not be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

A handwritten signature in cursive script, appearing to read "W. B. Kenna".

W. B. Kenna, Chief  
Safeguards Branch
