OEA

16 May 1980

Mr. Darrell G. Eisenhut
Acting Director
Division of Operating Reactors
Nuclear Regulatory Commission
Washington, D.C. 20545

Reference: Application for transfer of Reactor Operating
License R-98 dated 11 April 1980.
Docket No. 50-228

Dear Mr. Eisenhut:

An application for the transfer of Reactor Operating License R-98 was submitted to the Nuclear Regulatory Commission on 11 April 1980. The transfer was conditional on the satisfactory completion of the sale of Aerotest Operations, Inc. by OEA, Incorporated to a newly formed corporation, Aerotest Operations Acquisitions, Inc. The negotiations for the sale were unsuccessful and have been terminated. Consequently we must request withdrawal of our License Transfer Application.

We wish to thank the Nuclear Regulatory Commission personnel who worked on the transfer for their expedient handling of our application.

Very truly yours,

AEROTEST OPERATIONS, INC.

Richard L. Newacheck
President
