Lynchburg, Virginia 24505

Gentlemen:

This refers to your letter dated February 18, 1980 regarding the proposed construction and use of a temporary addition to Building J, your solid waste storage facility. We have determined that the construction of the addition would not significantly affect the quality of the human environment; thus you can start the construction of the proposed waste storage addition. However, prior to the introduction of radioactive waste to the waste storage addition, our review of your February 18, 1980 application and the supplementary information dated March 25, 1980 and April 8, 1980, must be completed and an amendment issued to Materials License No. SNM-778.

Sincerely,

A handwritten signature in cursive script, appearing to read "R. G. Page".

R. G. Page, Acting Chief  
Uranium Fuel Licensing Branch  
Division of Fuel Cycle and  
Material Safety
