Docket No.: 50-320

Mr. R. C. Arnold
 Senior Vice President
 Metropolitan Edison Company
 100 Interpace Parkway
 Parsippany, NJ 07054

Dear Mr. Arnold:

Subject: Mini Decay Heat Removal System (MDHR) Audits

This is to advise you that audits on the MDHR system for TMI-2 were conducted during April 16 and 17, 1980. The audits included all licensed personnel currently assigned to control room duties and a few persons in training status. In all 16 operators were audited with job classifications as follows: Senior Reactor Operator-6, Reactor Operator-7, and Reactor Operator Trainee-3. The audit was performed by Bruce Boger, TMI Program Office.

The results of the audits were satisfactory. The operators have been adequately trained on the normal and abnormal operation of the MDHR system. Modifications to the system are anticipated in the near future; however, these changes do not substantially affect system operation and will be addressed in the revised system procedures. Therefore, it is concluded that the operating staff will be able to operate the MDHR system in a competent manner.

Sincerely,

Original signed by
 John T. Collins
